FOR AUTOMOTIVE  
RACING & TESTING  
FACILITIES

**“ WE LOVE WHAT WE  
DO AND STRIVE FOR  
PERFECTION. IT’S NOT  
WORK, IT’S PASSION.  
WE BELIEVE THAT EVERY  
LITTLE DETAIL COUNTS  
MAKING THE WHOLE  
GREATER THAN THE SUM  
OF ITS PARTS! ”**

Dr. Carsten Tilke  
Managing Director

## ABOUT TILKE

**nice to meet you**

Tilke Engineers & Architects was established in 1983 and is globally recognized as the leading designer for race tracks and test facilities. We are one of the most experienced companies for planning and construction management when it comes to projects within the automotive industry and motorsports sector.

In 2015 Dr. Carsten Tilke, Hermann Tilke’s son, joined the family business. Both Hermann and Carsten share a passion for motor racing, developing and constructing race tracks.

With our unique balance that merges engineering experience, special know-how and tailor made solutions we deliver projects that will exceed your expectations.

Besides project related directly to the motorsports and automotive world, we have specialized on mayor developments that combine a broad scope of venues such as hotels, hospitals, housing projects, shopping malls and sports facilities.

Our approach to new projects is inter-diciplinary. Our highly experienced team consists of passionate engineers, architects, project managers, consultants and race drivers on a global scale.

**Hermann Tilke**

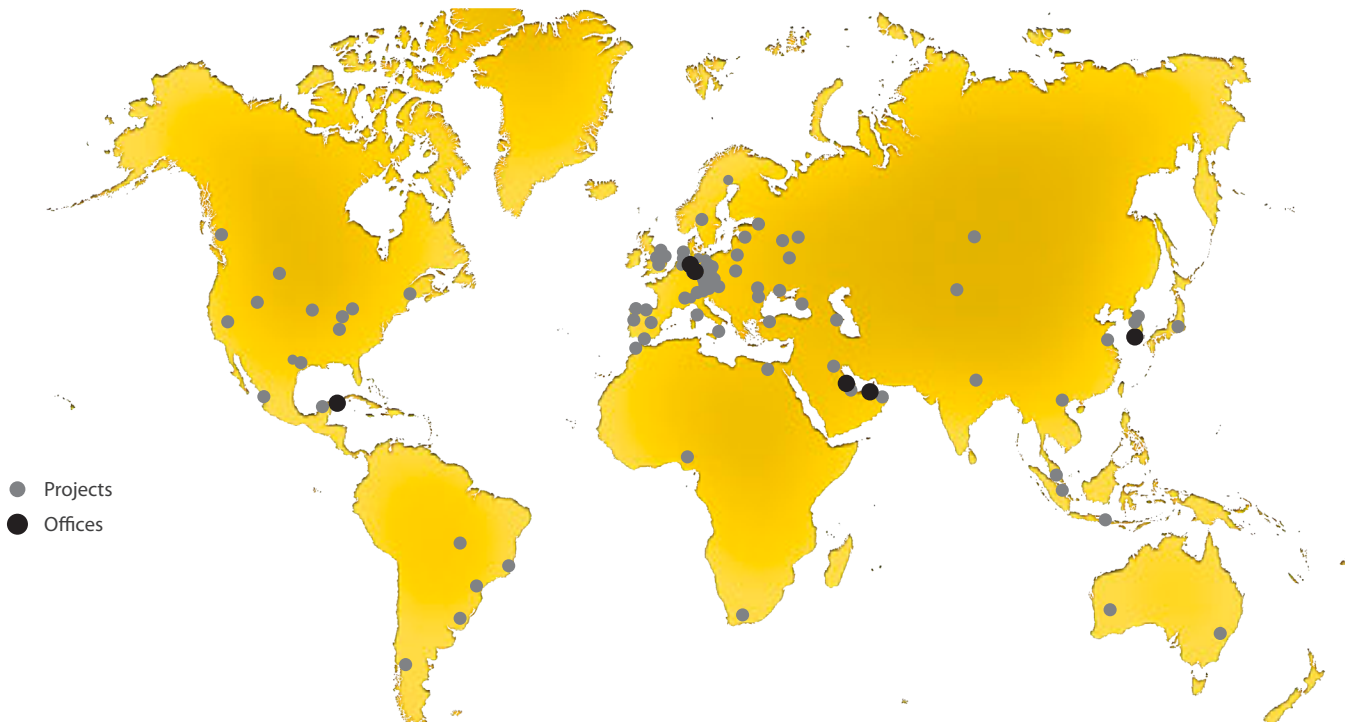

**Dr. Carsten Tilke**

## WHO WE ARE

nice to meet you

Tilke is the largest and most influential designer for race tracks and automotive facilities in the world. We are renowned for our state-of-the-art test and proving grounds and have completed more than 1.000 projects in over 50 countries. Our company consists of passionate experts and creative doers to design and realize innovative solutions to meet the future demands for auto-motive testing. With more than 150 employees we are covering all disciplines and interfaces from one single source.

## THE WAY WE WORK pedal to the metal

### WHAT WE DO

**CIVIL ENGINEERING** Race tracks | Kart tracks | Proving Grounds | Driving Academies | Offroad Parcours | Street Circuits | Rally Cross | Drag Strips | ...

**ARCHITECTURE** Health+Science | Hotels | Mixed Use | Offices | Sport Facilities | Residential | Cultural | Commercial | Stadiums | Urban Development | ...

### WHY WE DO IT

We love what we do and strive for perfection. It's not work, it's passion. We believe that every little detail counts making the whole greater than the sum of its parts.

### HOW WE DO IT

Our multidisciplinary in-house team of race drivers, engineers, architects, project managers, business and marketing consultants creates value for your project using the unique Tilke approach - creating a modular design which can be realized step by step according to the market needs and demands.

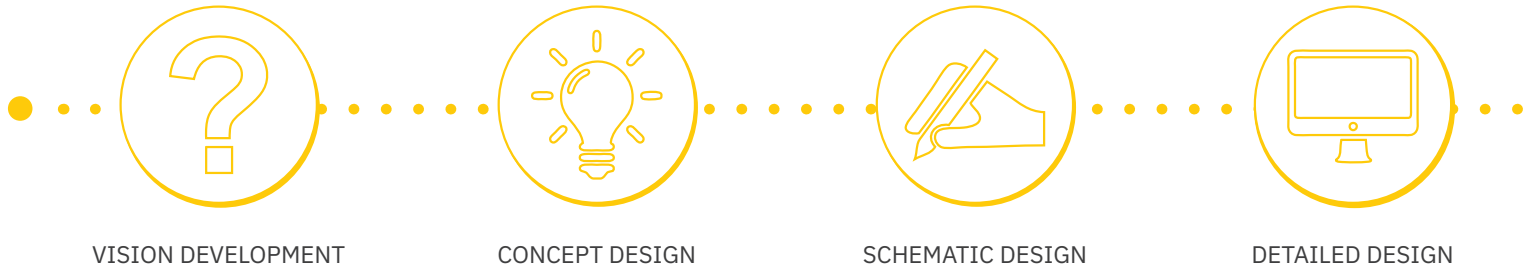

# ALL DISCIPLINES. ONE SOURCE.

RACE DRIVERS | CIVIL ENGINEERS | ARCHITECTS | BUSINESS CONSULTANTS | SITE MANAGER | MEP ENGINEERS | PROJECT MANAGER

## THE PROCESS OF YOUR FUTURE VENUE

### all phases from one hand

Every project is unique. This may imply a different plot of land, different project partners, different constraints, different targets or a different time schedule. By working with us, an experienced partner by your side, you can save money and time, because we provide tailor made solutions and constantly add value at any stage of the project.

## MODULAR DESIGN a step by step approach

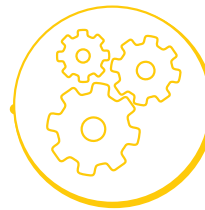

Our modular design ensures that the concept can be realized step by step. The final vision concept will be developed out of different modules, which can be build as the market grows and the demand arises.
